

For Immediate Release: October 28, 2022

Borough of Kennett Square Water Main Break Update

Personnel from the Borough's Department of Public Works have fixed the water main break on the 500 block of W. Mulberry Street. W. Mulberry Street is now back open to traffic.

The water main break and subsequent work by the Public Works Department does not impact the drinkability of the water.

Residents on W. Mulberry Street (and the surrounding area) who experienced disruption should have fully functioning water services at this time. Any resident still experiencing a problem with their water service should call 877-648-3081. Please note this is an after business hours emergency number.

The Borough thanks the residents for their patience while this issue was being addressed.
