

Tiered Trash System

Goal – Find a more equitable system which allows low volume users to pay equitably for their service.

Our trash service will be offering a 65 gallon toter (current size of recycling toter) and a 35 gallon toter along with the current 96 gallon toter for FY 2018.

Assuming a demand of 300 toters for each new size the proposed rates for 2018 are as follows:

2018 Projected Rates		
Class	Description	Rate/Qtr.
T1-96	96 Gallon Toter	\$ 69.07
T1-65	65 Gallon Toter	\$ 59.10
T1-35	35 Gallon Toter	\$ 49.13
T2	2 - 96 Gallon Toters	\$ 138.14
T3	3 - 96 Gallon Toters	\$ 207.22
TSR	96 Gallon Toter: Senior Rate	\$ 62.16
TSR2	2 - 96 Gallon Toters: Senior Rate	\$ 117.42
TSR3	3 - 96 Gallon Toters: Senior Rate	\$ 176.13
H 96	96 Gallon Toter Hardship	\$ 49.13

For reference a typical kitchen trash bag is 13 gallons therefore it's safe to say that if you have only two trash bags/week you could request a 35-gallon toter. We will have samples of each size on display at the Borough Office located at 120 Marshall Street.

Please note that all trash toter sizes are **NOT** permitted to have trash bags not entirely contained within the toter. Bags of trash are not permitted to be left on the ground or on top of the lid and the lid must close and seal. The trash hauler will not pick up trash not contained in the toter.

We will be accepting requests through **September 22nd** for the smaller sizes and they may be limited so please contact us immediately. The plan should go into effect in the first quarter of 2018. Please contact Karen Scherer at kscherer@kennettsq.org or 610-444-6020 x.108 to be put on the list.

We will notify residents no later than December 8, 2017 regarding the final implementation of the plan.
